PROFESSIONAL SUMMARY

QA Automation Engineer with 5+ years of experience in designing automation frameworks for Web, Mobile, and API testing. Experienced in Selenium, Playwright, Appium, and CI/CD automation, helping reduce regression testing cycles and improve software quality.

WORK EXPERIENCE – 5.5 YEARS

Bankai Infotech - QA Automation Engineer | Jan, 2024 – Present

- Designed and implemented a scalable QA automation platform using Java, Selenium, and REST API supporting Web, Mobile, and API testing across multiple environments.
- Integrated automation framework with Jenkins CI/CD enabling parallel execution and reducing regression cycle time by ~40%.

Tatvasoft - Software Engineer QA | Jan, 2020 – Dec, 2023

- Automated regression and functional testing, cutting testing time by 40% and increasing defect detection by 25%. Built robust test suites using Selenium and C#, integrated with Azure DevOps for streamlined CI/CD pipelines, enhancing release cycles and product quality.
- Developed and executed comprehensive API testing strategies using Postman. Optimized performance testing by leveraging JMeter to simulate varying loads

PROJECTS

Mobifin – Java | Maven | Selenium | Appium | REST API | Jenkins | Redis

- Built an enterprise QA automation platform supporting API, Web, and Mobile testing**,** with real-time execution monitoring (WebSocket)**,** parallel execution, and centralized reporting.
- Integrated Jenkins CI/CD pipelines, implemented Redis-based dynamic test data management, and developed Data-driven end-to-end automation frameworks.

AmeriCash - Selenium | C# | MSTest | SQL

- Developed a Selenium-based automation framework using C#, MSTest, implementing Page Object Model (POM), data-driven testing, multi-browser support, and Extent reporting.
- Maintained and expanded frameworks for evolving software requirements

GEICO - Specflow | C# | RestSharp

- Created API automation framework with C#, RestSharp, and SpecFlow. Integrated parallel testing, Extent reporting, and Selenium WebDriver.
- Established connectivity with Azure Cosmos DB for enhanced data-driven testing capabilities. Contributed to increased testing efficiency and team collaboration.

SKILLS

Automation Tools: Selenium, Playwright, Appium

Frameworks & BDD: TestNG, JUnit, MSTest, NUnit, Cucumber, SpecFlow, BDD

Programming & Scripting: Java, C#, JavaScript, SQL, Python (Basic)

CI/CD & DevOps: Jenkins, Maven, Git, Azure DevOps

Data & Tools: Redis, Postman, JMeter, MySQL, Jira

EDUCATION

B.Tech in Electronics Engineering, Birla Vishvakarma Mahavidhyalaya CGPA: 6.86 | Jul, 2020

PCM With Computer science, Shree B.N.Virani School Cum. Per: 69.69 | Mar, 2016

CERTIFICATIONS

- Playwright Automation (JavaScript & TypeScript) – Web & API Testing, Framework Design, Cucumber BDD, CI/CD Integration (Udemy, 2025)
- Enhancing Soft Skills and Personality(NPTEL-IIT Kanpur)
- Employment Communication – A Lab Based Course(NPTEL-IIT Kharagpur)
- Internet Of Things(NPTEL-IIT Kharagpur)

ACHIEVEMENT

- Above & Beyond Award – Recognized for designing scalable automation frameworks and improving automation coverage and testing efficiency.
